## Objectives

I am a degree student, currently pursuing a degree programme (BTECH COMPUTER SCIENCE) at Koforidua Technical University. I am looking forward to any position that I can contribute to the success of the institution and also passionate to be in a position within an institution of which I will also play a major role when there is a challenging situation to be addressed. Again, to be recognized as being competent and well qualified person for the position that I'm occupying.

Creative and detail-oriented **Graphic Designer & Web Developer** with a passion for crafting visually compelling designs and seamless digital experiences. Proficient in UI/UX design, front-end development, and branding, with expertise in tools like Adobe Creative Suite, Figma, and modern web technologies (HTML, CSS, JavaScript, React). Adept at translating client visions into engaging, functional websites and marketing materials. Seeking to leverage my skills to create impactful digital solutions and elevate brand identities.
